ABOUT KANCHAN

Understanding first. Confidence follows.

Kanchan Suyash Bhore teaches English to learners at every stage, from school students and young adults to bachelor's and master's candidates. She is a British Council certified IELTS trainer, an ETS TOEFL Ambassador and a certified career counsellor from the University of California, Los Angeles. She founded Prime Study Abroad in Nashik and regularly takes her classroom to colleges in and around the city.

Her starting point is simple: most students are not weak in English. They were taught it as rules to memorise. So she teaches the reason behind each rule, often through the *swar* and *uchchar* of Marathi and Hindi. Ask her whether it is "a" or "an", and she points to the first sound, not the spelling: an hour, an MBA, a university. Students from Maharashtra's villages and its cities follow her with equal ease.

Her lessons rest on evidence. Over the years she has catalogued more than 600 errors that Indian learners actually make, so class time goes to the mistakes that matter and not to the whole grammar book. Every student speaks, early and often.

Warm, patient and precise, she treats every hesitant speaker as capable.

> *Because of your constant support and guidance, my dream of studying abroad has come true. Forever grateful for your presence in my journey.*
